Subject: Re: Sample Coordination Meeting Today at 4pm in E201 - Please plan to attend unless you need to run samples

Cindy,

I just finished running the anions samples for Dimock! I found a lot of bromide and phosphate in the samples! Just kidding! The samples are very low level and have no bromide, phosphate or fluoride in them. One sample has a trace of nitrite! The anions which I saw were chloride, sulfate and nitrate. The nitrate level is way below the MCL of 10 ppm!

Thanks for the notice. Would you provide me with a status of the anions for the Dimock samples?
